

DAY 1 November 23

🕒 08:00 **Welcome coffee**

📍 CONFERENCE ROOM
PANORAMA

🕒 9:00 → 18:00 **Business Meetings during the 2 days / sponsors booths**

🕒 09:15 **Opening Speech:** Eric Pierrejean, CEO JEC Group & Michael Effing, President AVK

🕒 09:30 **Keynote session: Trends in the global commodity markets**

🕒 10:00 → 11:30 **MARKET DEVELOPMENT**

- Composites market report
- Fibre market developments with regards to EMI shielding
- Composites Industry 4.0

🕒 11:45 **Workshop #1 WALTER MÄDER AG**

🕒 12:30 **Workshop #2 TRIMA SPOL SRO**

🕒 13:15 **Startup Booster pitches session**

🕒 14:15 **Werner Loscheider**, Head of the division that looks after construction, lightweight construction/new materials, and resource efficiency at the Federal Ministry for Economic Affairs and Energy (BMWi)

🕒 14:30 **Keynote session: Assessment of the sustainability of composites**

🕒 15:00 → 16:30 **ENVIRONMENTAL PROTECTION & SUSTAINABILITY**

- Recycling of thermoplastic composites into high value long-fiber reinforced thermoplastics
- Mechanical recycling of glass fiber can be profitable: a multiple case-study
- Keen to be green - increasing sustainability in composites resins manufacturing
- Current legislation for producers of composites parts

🕒 16:45 **Workshop #3 SAERTEX GMBH & CO KG**

🕒 17:30 **Workshop #4 NETZSCH PROCESS INTELLIGENCE GMBH**

🕒 18:15 **Startup Booster & Awards ceremony**

🕒 19:15 **Networking Afterwork**

DAY 2 November 24

🕒 08:30 **Welcome coffee**

📍 CONFERENCE ROOM
PANORAMA

🕒 9:00 → 18:00 **Business Meetings during the 2 days / sponsors booths**

🕒 09:30 **Keynote session: Hydrogen tanks for automotive: markets, materials, processes**

🕒 10:00 → 11:30 **COMPOSITES FOR e-MOBILITY**

- SMC/BMC materials for e-mobility
- A different approach for successful use of composites in eMobility market
- Composites for electric vehicle battery casings: requirements, opportunities and challenges

🕒 11:45 **Workshop #5 MASCHINENFABRIK HERBERT MEYER GMBH**

🕒 12:00 → 14.00 **ITA INNOVATION SESSION**

📍 ANALOG ROOM

🕒 12:30 **Workshop #6 KISLING AG**

🕒 13:15 **Workshop #7 KROENERT GMBH & CO KG**

🕒 14:30 **Keynote session: Thermoplastic composites in the automotive industry: exemplary parts & hurdles**

🕒 15:00 → 16:30 **NEW APPLICATIONS FOR THERMOPLASTIC COMPOSITES**

- Fast and flexible automation of continuous fibers composites for e-mobility
- Thermoplastic Composites for sustainable mobility
- Laser assisted tape winding of high performance tapes - analyzing the influence of placement speed
- Thermoplastic honeycomb cores for automotive applications

🕒 16:45 **Workshop #8 ELANTAS EUROPE S.R.L.**

🕒 17:30 **Workshop #9 CMS SPA**
